

SKYSCRAPER / SCP06

Denotes minimum order quantity of 3000 m²

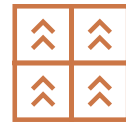

Specifications

	Skyscraper	Square
Construction:	Multilevel Loop	Multilevel Loop
Yarn Content:	Nylon 6	Nylon 6
Dye Method:	Solution Dyed	Solution Dyed
Machine Gauge:	1/12"	1/12"
Stitch Count:	9 S.P.I.	9 S.P.I.
Finished Pile Thickness:	.24 / .20 / .16 / .12" (6/5/4/3mm)	.22 / .18 / .12" (5.5/4.5/3mm)
Yarn Weight Tufted:	16 oz/yd ² (540g/m ²)	16 oz/yd ² (540g/m ²)
Backing:	Virgin PVC backing with odor reducer	Virgin PVC backing with odor reducer
Tile Size:	20"x20"(50CMx50CM) 24"x24"(60.9CMx60.9CM)	20"x20"(50CMx50CM) 24"x24"(60.9CMx60.9CM)
Odor Reduction:	Puralex®	Puralex®

Recommended Installations

1/4 Turn

Monolithic

Additional information

Specifications are based on averages from manufacturing processes and may vary within normal industry tolerances, including dye lot variations. Material supply and or manufacturing processes may necessitate specification changes without notice. Such variations do not affect product performance.

Puralex

Odor Neutralizer Freshness takes the floor

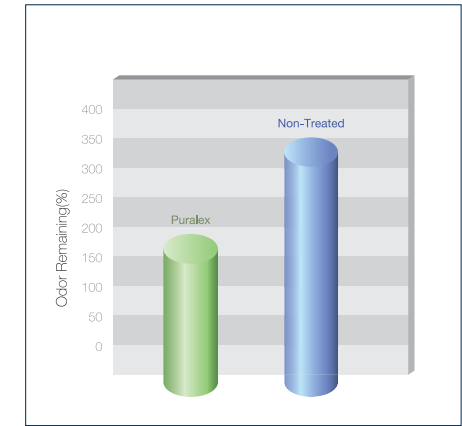

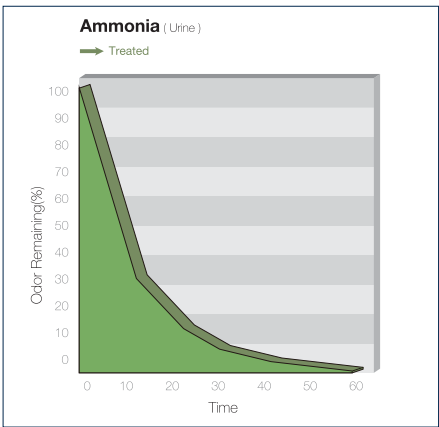

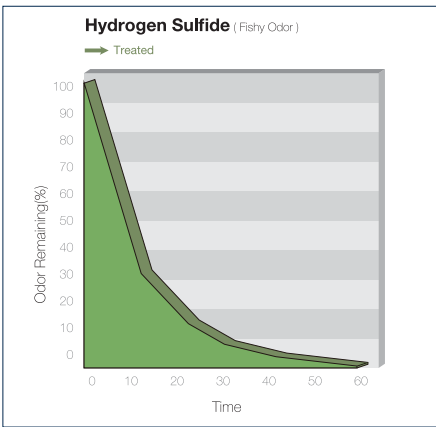

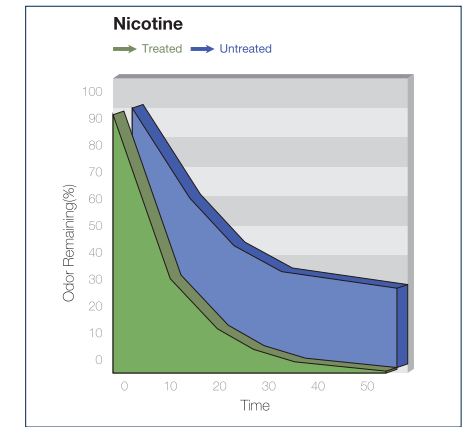

- Odor neutralizer
- Freshens the air
- Environmentally friendly
- Reduces voc emissions
- Self renewing

Puralex from Beaulieu Commercial is a self-renewing odor neutralizer that purifies and freshens the air indoors. Puralex works by breaking down most organic molecules in the air into inert material. Unlike surface treatments, Puralex forms a complex molecular bond to the carpet itself and lasts through time and multiple cleanings.

Puralex

- Attacks virtually all organic odors
- Has no fragrance
- Contains no harmful chemicals
- Reduces total VOC emissions by 25-40% by absorbing odors from the air

Puralex is a self-renewing odor neutralizer that purifies and freshens the air indoors.

Total VOC emissions for a treated, and untreated carpet sample

Independent testing using EPA approved methods shows Puralex reduces total VOC emissions 25-40% by absorbing odors from the air. Actual results will vary based on room airflow conditions.

Environmental Chamber test following ASTM D5116. Analysis based on EPA Method IP-1B for VOC's by thermal desorption followed by gas chromatography/mass spectrometry (TD/DGS/MS), and EPA IP-6A for selected aldehydes by high performance liquid chromatography (HPLC).

Safety and performance life

- Puralex forms a complex molecular bond with the carpet
- Passes all standards of safety for flammability
- Puralex activates by air circulation and withstands both repeated cleanings and wear
